

Ian Fraser

INSURANCE ADVISER

SECURING WHAT'S IMPORTANT TO YOU

HOW I CAN HELP YOU

Together we will establish what is important in your life to protect, and discuss the various options available to you and your family. The conversation will be in-depth and revealing and I will ask the most important question: "what if?"

THE BENEFIT OF EXPERIENCE

Life Protection has been part of my career for almost 16 years.

I have seen how an untimely death or trauma can bring not only financial hardship but also future devastation to a family unit as life changes for good. As well as the highs: relief in knowing I have cared for my client appropriately and am there when they need me the most, with a protection plan that will rebuild their lives.

MY EXPERTISE IS ABOUT PEOPLE

Understanding you is one of the most important skills I have as an Adviser. I see clients as mothers, fathers, people looking to protect their children and themselves - their life goals, dreams, and businesses.

The death or trauma of anyone will always bring financial burden; having that discussion with an adviser like me can drastically reduce the financial impact and support those who need it the most.

"Putting the **right** money in the **right** hands, at the **right** time"

INSURING THE FUTURE

You have the right to put in place the best protection you can for your family, to be assured that whatever happens to you or your loved ones, life's dreams and goals can continue. Risking this should **not be an option**.

Let's talk today.
